

TAKE OFF YOUR BLINKERS AND GROW YOUR BUSINESS!

Tempting as it is to stop all spending at the moment, those who invest in their personal and business development by hiring a Business Coach reap rewards in a variety of ways both personal and financial.

Laura Mtungwazi from LKM Photography www.lkmphotography.com was one such person. Her testimonial, below, speaks for itself.

“My business coaching sessions with Clifton Consulting have enabled me to double my turnover within the last 18months.

As a sole-trader, it’s been invaluable to be able to talk through both my challenges and goals with an expert who holds an objective viewpoint and who genuinely wants to see my business flourish.

I am currently enjoying my maternity leave knowing that I have achieved both my financial and personal goals for this year.

Before I was coached by Clifton Consulting I never knew how this would be possible.

A BIG THANK YOU from Laura and Bump!”
